Professional Summary

Motivated and detail-oriented **Computer Science Engineering graduate (B.Tech 2025, CGPA 9.27)** with hands-on experience in **Full Stack Development (MERN)** through **internships and industry projects at Tecblic Pvt. Ltd.** Currently working as a **Graduate Apprentice at ISRO**, gaining exposure to real-world systems, debugging, and web-based communication workflows. Skilled in building responsive user interfaces, scalable APIs, and optimising application performance using modern web technologies.

Education

Silver Oak University

Bachelor of Technology in Computer Science Engineering — CGPA - 9.27

Sep 2021 – May 2025

Ahmedabad, Gujarat, India

Kendriya Vidyalaya

H.S.C - 12th — Percentage - 80%

April 2020 – June 2021

Dhrangadhra, Gujarat, India

Experience

Indian Space Research Organisation – Space Applications Centre

March 2026 – Present

Graduate Apprentice

Ahmedabad, Gujarat, India

- Debugged and optimised UDP/IP-based communication workflows for monitoring systems interacting with C-based modules.
- Built frontend features, backend APIs, and database functionality while improving code quality, debugging, and application performance.
- Developed and enhanced a Remote Monitoring and Control Application using Python (Flask), HTML, CSS, JavaScript, jQuery, & SQLite3.

Tecblic Private Limited

Jul 2025 – Sep 2025

Jr Software Engineer

Ahmedabad, Gujarat, India

- Collaborating with cross-functional teams to **develop and deploy scalable web applications**.
- Enhancing system performance by debugging and optimising application modules.

Tecblic Private Limited

Sep 2023 – June 2025

Software Engineer Intern

Ahmedabad, Gujarat, India

- Developed React. JS-based modules using hooks, reusable components, and Redux for efficient state management.
- Developed reusable React components, improving UI consistency across multiple modules.
- Collaborated with a team using **Git/GitHub version control** and participated in Agile sprints.

Skills

Programming Languages - JavaScript (ES6+), Python, C, HTML5, CSS3

Core Concepts - Data Structures & Algorithms (Arrays, Strings, Recursion, LinkedList, Problem Solving), SDLC.

Frontend Development - React.js, Redux, State management lib, Tailwind CSS, Chakra UI, Material-UI, Responsive UI Development, jQuery

Backend Development - Node.js, Express.js, JSON, Authentication, API Integration

Database - MongoDB, PostgreSQL, SQLite3

Development Tools & Version Control - GitHub, VS Code, Vercel

Software Development Practices - Debugging, Troubleshooting, Code Optimisation, Agile Development, Cross-Functional Collaboration

Soft Skills - Strong Interpersonal & Communication , Analytical Thinking & Problem Solving , Quick Adaptability & Team Collaboration

Projects

Warehouse Management System (i-WMS ERP) | React JS

- Designed and developed key modules to increase workflow efficiency by 30%.
- Debugged live issues, tested workflows, and improved system reliability.

e-Sports Tournament Platform | React.js, TypeScript

- Developed scalable frontend modules and integrated REST APIs to support dynamic tournament workflows and real-time user interactions.
- Resolved critical UI bugs and integrated backend APIs, improving user engagement by 15%.

File Sharing Application | Nodejs, MongoDB

- Developed backend using Node.js and MongoDB for storing and downloading files via secure links.

Remote Monitoring and Control Application | Python (Flask), HTML5, CSS3, JavaScript, jQuery, SQLite3

- Developed new modules and end-to-end features for a real-world monitoring application by implementing frontend interfaces, backend functionality, and database operations.
- Improved application performance, code quality, debugging, and system reliability while working with Flask APIs and SQLite3 in a production environment.
